CHRISTMAS ISLAND

Christmas Island is a rocky outpost located 2600km north east of Perth and 450km south of Jakarta. Resting on the precipice of the Java Trench, the Island is surrounded by jagged cliffs, punctuated by coral beaches, feeding onto tropical reefs teeming with marine life. The multi-levelled terraces around the island host various terrestrial and avian fauna and flora. Christmas Island has over 90 different species of crabs, some obvious and world-renowned like the Christmas Island Red Crab and the enormous Robber Crab, others far more elusive.

The bird life on Christmas Island cannot be missed. Birds are everywhere – all the time! Christmas Island boasts one of the most beautiful birds on the planet – the gold White-tailed Tropicbird, or Golden Bosun. Their mesmerising aerial acrobatics and distinctive call can be heard all around the island. To support this varied and abundant life, the jagged inland terraces and ocean cliffs underpin the Jurassic style rainforest. A uniquely multicultural community adds colour and flavour to this Australian outpost on the edge of South East Asia.

COCOS (KEELING) ISLANDS

The Cocos (Keeling) Islands are the most western part of Australia. This chain of 27 islands form around the ring of an extinct volcano and offer the quintessential tropical holiday destination with gorgeous white sandy, palm tree-lined beaches. West Island is your first port of call. Most accommodation properties are located here, along with many of the tourist services. There are plenty of beaches to explore either on foot, bike, scooter or with a vehicle. Trannies Beach for snorkelling, Pulu Maraya for a lagoon walk and the yacht club to view the colourful kite surfers in the season, all make great places to while away your day.

Home Island is home to the Cocos Malay community and the seat of the Clunies-Ross dynasty, Oceania House and is regularly serviced with a ferry across the lagoon. Take a tour with a local guide, visit the museum, walk around their interesting 'island home' and definitely experience a way of life not offered anywhere else in Australia. Fishing, diving, boat trips, canoeing, kayaking, snorkelling and island hopping are just a few of the things that you can do on Cocos to ensure you maximise your tropical island experience.
